# CTESTAR® Sample Report Key

Competency Certificate. Printed on widely available certificate paper for professional appearance. Information on certificate is drawn from teacher created course file. Print for all students, or select students. Watermark changes based upon pathway.

Student Task Achievement Record (STAR). Printed for all students, or select students. The legend, listed at the bottom, 1,2,3,4 or '-'. Task lists fully editable by teachers. National Career Cluster and others such as NATEF included. Others available upon request. Fully editable by teacher.

Progress Report. Similar to a traditional grade-book with a row for each student, and a column for each task. The items correspond to those in the above STAR.

Progress Report (Without Names). Similar to the prior Progress Report, except that no names are listed—only student id's. This report is useful in districts where posting of student proficiencies with names is prohibited.

Course Task List. List of the tasks in the course. Serves as a syllabus, or to explain the columns in the Progress and/or Summary reports.

Curriculum Summary. Summary of the student proficiencies for the course. One row for each proficiency level, one column for each task. The number at the intersection between the row and column represents the total number of students with the prescribed proficiency on the prescribed task.

Course Curriculum Cross-Walk. Indicates the task item(s) that address a particular Curriculum Framework element. Compare with following companion task list.

Course Curriculum Cross-Walk – Companion Task List. Task list which corresponds to sample curriculum cross-walk. Compare the numbered tasks to items beneath each framework item.
