

CTESTAR[®] Vista Compatibility

Click the *Tools* drop down button in upper right-hand corner of the browser and select the *Internet Options* drop down menu

Click the *Trusted Sites* security zone

Ensure that the *Require server verification (https:)* for all sites in this zone check box is not checked

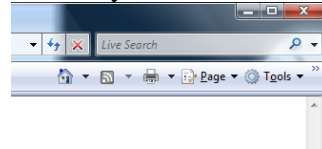

Click the *Add* button

Confirm that you are able to import a task list from the internet within CTESTAR[®]

Browse to the <http://www.ctestar.com> web page with *Internet Explorer* (even if you normally use a different browser!)

Select the *Security* tab on the *Internet Options* dialog box

Click the *Sites* button

Ensure that <http://www.ctestar.com> is displayed in the *Add this website to the zone:* field

Close the browser window
